

# TELECOMMUNICATION DATA CENTER – BMS

## Project

*CSP successfully installed BMS - Building Management System for the new Telecommunication Building*

- ✓ One of the leading independent telecommunication service providers, offering a network of interconnected data centers across Albania, to meet the hosting needs of carriers and enterprises
- ✓ One data hall for the site planned
- ✓ Building automation system designed to allow for future expansion.

EC-NetAX web-based multi-protocol building management solution for the integration and:

- Control and monitoring of HVAC equipment throughout the building inclusive of data hall
- CRAC units
- Monitoring of fire trip alarms
- Multi-function meters
- Main switchboard fault and condition statuses
- Monitoring of UPS units
- Maintaining optimum temperature, humidity and CO2 levels
- Monitoring of water leakages

### List of the BMS products

- ◆ 1 ECY-S1000
- ◆ 2 ECY-8UI
- ◆ 2 ECY-16UI
- ◆ 1 ECY-RS485
- ◆ 1 PDCSY-PM-EM24-M
- ◆ EC-NetAX web-based multi-protocol building management solution providing control and monitoring of HVAC equipment
- ◆ ENVYSION for EC-Net
